Motor Cycle Trailers 500kg & 750kg Gross Capacity

Model Details

For customers who are looking for a trailer to a particular budget we stock a range of economy Motor Cycle trailers, which are built to the highest quality using galvanised steel and heavy duty wheel equipment. The construction and materials used ensure a strong robust trailer which combines low maintenance, strength and offering a low unladen weight which makes for excellent towing and ease of handling.

Key Features

- All motor Cycle trailers come complete with full regulation lighting system
- Galvanised steel construction and are supplied with a choice of single , double or treble runners depending on the number of bikes you wish to carry.
- Securely fitted loading ramp.
- Range of lashing points

We also offer two types of suspension depending on size and gross towing weight

500Kg Trailers are fitted with Independent suspension axles

750Kg trailers are fitted with 5 leaf spring suspension.

Optional Extras

Our spares parts department stock a large range of accessories including jockey wheels, Spare wheels, lockable hitch heads etc.
